

## **Kajko, Ed**

When I first joined Colorado region back in 1981 I was impressed by the experience and stories of the old timers. Lately I've realized that I've become one of those old timers. One of the things I've learned in those years is that as a volunteer organization nothing gets done unless somebody volunteers. My own record has been hit or miss so it's my turn to step up and take a turn at the board. I ran once before as a representative of the Pro Rally contingent and made it to the final round of runoff votes before not getting elected.

My experience in the region includes working with Pro Rally, back when we did that, club and professional racing. I worked all the Denver street races, Denver GP and GP of Denver, as well as club races at tracks all over Colorado and club and professional events coast to coast and border to border. I have two club awards to my credit, Pro Rally Worker of the Year in 1994 and the Shirley Burtis award in 2010.

My real world work experience totaled thirty nine years in Information Technology. The most important lesson I learned there that would apply to being on the Bod is to listen and think through the issue, computers don't respond to ranting and raving, it doesn't do any harm but doesn't accomplish any thing either. My vision for the future of the region is that we're not just a race sanctioning body but a club and as a club we succeed or fail together.

Campaign Slogan: "There is no 'Them', it's just 'Us'."
